1994 INDEX

Water Environment Research
Monthly Contents, Vol. 66 (1994)

January/February

EDITORIAL

Environmental Engineering: A maturing profession
H. E. Allen 3

RESEARCH PAPERS

The role of water in sludge dewatering
P. A. Vesilind 4

Performance of upflow anaerobic sludge blanket reactor carrying out biological hydrolysis of urea
M. Latkar, T. Chakrabarti 12

Measurement of volatile acid concentration in anaerobic processes by least squares regression of overdetermined titration data
J. J. Bisogni, Jr. 16

Anaerobic treatment of a simulated high-strength industrial wastewater containing chlorophenols
J. R. V. Flora, M. T. Suidan, A. M. Wuellner, T. K. Boyer 21

An economic evaluation of biological removal of heavy metals from wastewater sludge
D. Couillard, G. Mercier 32

Bactericidal effect of long chain fatty acids in anaerobic digestion
A. Rinzema, M. Boone, K. van Knippenberg, G. Lettinga 40

Photocatalytic decolorization of wastewater dyes
R. J. Davis, J. L. Gainer, G. O'Neal, I. W. Wu 50

Disappearance and crop uptake of PCBs from sludge amended farmland
D. R. Gan, P. M. Berthouex 54

Laboratory-scale evaluation of aerobic fluidized bed reactors for the biotreatment of a synthetic high-strength chemical industry waste stream
D. E. Edwards, W. J. Adams, M. A. Heitkamp ..70

Recovery of macroinvertebrate communities from metal pollution in the sourth fork and mainstem of the Coeur d'Alene River, Idaho
W. K. Hoiland, F. W. Rabe, R. C. Biggam 84

DISCUSSION

Of: **Estimation of the removal of organic priority pollutants by the powdered activated carbon treatment process,** G. J. O'Brien, **64**, 877 (1992).
J. F. Kuo, T. Hashman 89

CLOSURE

To Discussion of: **Estimation of the removal of organic priority pollutants by the powdered activated carbon treatment process,** G. J. O'Brien, **64**, 877 (1992); Discussion by J. F. Kuo, T. Hashman
G. J. O'Brien 92

March/April

EDITORIAL

Bioremediation education
C. P. Leslie Grady, Jr. 99

RESEARCH PAPERS

Structure of RBC biofilms
W. M. Zahid, J. J. Ganczarczyk 100

Removal of radionuclides in wastewater utilizing potassium ferrate (IV)
M. E. Potts, D. R. Churchwell 107

Trace metals in the Newport Submarine Canyon, California and the adjacent shelf
D. Mauer, G. Robertson, T. Gerlinger 110

Kinetics of acetogenesis and methanogenesis in anaerobic reactions under toxic conditions
I. S. Kim, J. C. Young, H. H. Tabak 119

Membrane biological reactor system for treatment of oily wastewaters
M. D. Knoblock, P. M. Sutton, P. N. Mishra, K. Gupta, A. Janson 133

Emissions of air toxics from wastewater treatment plants
G. J. Mayer, I. S. Cheng, F. Mohamed, P. Pau 140

Continuous-backwash upflow filtration for primary effluent
S. K. England, J. L. Darby,

Membrane biological reactor system for treatment of oily wastewaters
M. D. Knoblock, P. M. Sutton, P. N. Mishra, K. Gupta, A. Janson 133

Emissions of air toxics from wastewater treatment plants
G. J. Mayer, I. S. Cheng, F. Mohamed, P. Pau 140

Continuous-backwash upflow filtration for primary effluent
S. K. England, J. L. Darby,

G. Tchobanoglous 145

Performance comparison between activated sludge and fixed film processes for priority pollutant removals
L. W. Clapp, M. R. Talarczyk, J. K. Park, W. C. Boyle 153

Investigation of hypothesized anaerobic stabilization mechanisms in biological nutrient removal systems
M. V. Wable, C. W. Randall 161

Metal removal by soil washing for an iron oxide coated sandy soil
J. E. Van Benschoten, B. E. Reed, M. R. Matsumoto, P. J. McGarvey 168

DISCUSSION
Of: **Anaerobic treatment of thermal sludge conditioning liquor with granular sludge,** T. Kimata, T. Kawai, M. Tada, K. Tanaka, K. Shinabe, K. Shimizu, **65**, (1993).
G. Crawford 175

CLOSURE
To Discussion of: **Anaerobic treatment of thermal sludge conditioning liquor with granular sludge,** T. Kimata, et al., **65**,175 (1993); Discussion by G.Crawford
T. Kimata, K. Shinabe 176

May/June

EDITORIAL
Technology advancement through newsletter?
D. A. Dzombak 187

RESEARCH PAPERS
Constructed reed beds: A cost-effective way to polish wastewater effluents for small communities
M. B. Green, J. Upton 188

A comparison of three artificial substrate samplers: Macroinvertebrate densities, taxa richness, and ease of use
E. J. Kirk, S. A. Perry 193

Thermal regeneration of spent and acid-washed GAC from the Upper Occoquan Sewage Authority
E. G. Sebastiani, V. L. Snoeyink, R. W. Angelotti 199

Estimating semivolatile organic compound emission rates and oxygen transfer coefficients in diffused aeration
C. Hsieh, R. W. Babcock Jr., M. K. Stenstrom 206

Aerobic biodegradation potential of photoprocessing wastewaters
S. Pavlostathis, D. Morrison 211

Anaerobic biodegradation potential of photoprocessing wastewaters
S. Pavlostathis, K. Sridhar 220

Biological treatment of hypersaline wastewater by a biofilm of halophilic bacteria
C. R. Wollard, R. L. Irvine 230

Optimization of a nitrogen removing biological wastewater treatment plant using on-line measurements
J. Sorensen, D. E. Thornberg, M. Nielsen 236

A two-phase anaerobic digestion process: Concept, process failure, and maximum system loading rate
P. Fongastitkul, D. S. Mavinic, K. V. Lo 243

Compliance outlook: Meeting the 40 CFR, Class B pathogen reduction critieria with anaerobic digestion
J. R. Stukenberg, J. Shimp, J. Sandino, J. H. Clark, J. T. Crosse 255

Fate of Salmonella typhimurium and total coliforms during bacterial leaching
J. G. Henry, D. Prasad, B. M. Smith 264

June Literature Review

EDITORIAL
The continuing evolution of the Literature Review
A. S. Weber 277

MEASUREMENT OF POLLUTANTS
Chemical species
J. N. Jensen, A. M. Dietrich 279

Detection and occurrence of waterborne bacterial and viral pathogens
E. K. Black, G. Finch 292

Monitoring, sampling, and automated analysis
R. Goo 298

TREATMENT SYSTEMS
Planning, design, and construction
R. O. Mines, Jr. 303

Urban runoff and combined sewer overflows
K. P. Walker 305

Physicochemical processes
M. R. Matsumoto, J. N. Jensen, P. McGinley, B. E. Reed 309

Activated sludge and other aerobic suspended culture processes
M. D. Aitken, P. E. Heck, L. Alvarez-Cohen, S. J. Grimberg, W. T. Stringfellow 325

Biological fixed-film systems
I. A. Al-Ghusain, O. J. Hao, J. M. Chen, C. F. Lin, M. H. Kim, A. Torrents 336

Anaerobic processes
S. G. Pavlostathis 342

Natural treatment systems
A. P. Kruzic 357

Disinfection and antimicrobial processes
E. R. Blatchley, III 361

Sludge management
K. A. Groff, L. A. McLaughlin 368

Gaseous emissions from wastewater facilities
D. S. Dawson, M. A. Gokare 375

Water reclamation and reuse
R. G. Smith, M. R. Walker 378

Wastewater treatment plant optimization and automation
D. D. Truax 383

INDUSTRIAL WASTES

Agricultural wastes
J. B. Marr, R. M. Facey 387

Automotive wastes
B. R. Kim 394

Chemicals and allied products
C. C. Churn 401

Food processing wastes
J. L. Walsh, Jr., C. C. Ross, G. E. Valentine, Jr. 409

Metal finishing and processing
J. D. Enzminger 413

Minerals and mine drainage
B. M. Thomson, W. R. Turney 415

Pulp and paper effluent management
D. Srinivasan 417

Pesticides and herbicides
K. S. Ro, K. H. Chung 432

HAZARDOUS WASTES

Hazardous wastes assessment, management, and minimization
R. J. Watts, M. E. Nubbe, P. C. Stanton 435

Hazardous waste treatment technologies
B. J.Kim, S. Qi, R. S. Shanley 440

Hazardous waste storage, disposal, remediation, and closure
E. F. Millano, H. V. Jones, R. O. Ball 456

Radioactive wastes
M. S. Devarakonda, J. M. Melvin 465

FATE AND EFFECTS OF POLLUTANTS

Mixing and transport
D. J. Mossman, L. C. Roig 477

Lake and reservoir management
H. Olem, J. Simpson 489

Aquatic sediments
B. A. Sylvester, L. S. Garton, R. L. Autherieth 496

Groundwater quality
A. S. Mayer, P. T. Imhoff, R. J. Mitchell, A. J. Rabideau, J. F. McBride, C. T. Miller 532

Nonpoint sources
D. E. Line, D. L.Osmond, S. W. Coffey, J. A. Arnold, J. A. Gale, J. S. Spooner, G. D. Jennings 585

Dissolved oxygen in streams and reservoirs
J. A. Gordon, A. B. Avera 601

Substratum-associate microbiota
C. G. Peterson, N. C. Tuchman 602

Effects of chemicals on microorganisms
A. D. Levine, M. Rachakornkij 611

Effects of pollution on saltwater organisms
D. J. Reish, P. S. Oshida, A. J. Mearns T. C. Ginn 623

Thermal effects
M. Floyd, J. B. Cravens 635

Biomonitoring
C. R. Lange, K. E. Lambert 642

Health effects associated with wastewater treatment, disposal, and reuse
W. B. Kindzierski, S. Gabos 651

July/August

EDITORIAL

How clean is clean? The battle for Point Loma
A. J. Mearns 667

RESEARCH PAPERS

Effects of particulate size in anaerobic acid ogenesis using cellulose as a sole carbon source
Y. T. Chyi, R. R. Dague 670

Removal of zinc and manganese from contaminated water with cyanobacteria mats
J. Bender, J. P. Gould, Y. Vatcharapijarn, J. S. Young, P. Phillips 679

HIV and the Bloodborne Pathogen Regulation: Implications for the wastewater industry
R. W. Johnson, R. E. Blatchley, III, D. R. Mason 684

Solvent washing of PCP contaminated soils with anaerobic treatment of wash fluids
A. P. Khodadoust, J. A. Wagner, M. T. Suidan, S. I. Safferman 692

The effects of freeze-drying and storage on phenol degradation
R. L. Gaiek, C. R. Lange, A. S. Weber 698

Modeling of anaerobic corrosion influenced by sulfate-reducing bacteria
C. Peng, S. Suen, J. K. Park 707

Anaerobic treatment application and fundamentals: Substrate specificity during phase separation
P. Fox, F. G. Pohland 716

A faculative pond model incorporating biofilm activity
C. Polprasert, B. K. Agarwalla 725

Use of an integrated monitoring approach to determine site-specific effluent metal limits
J. M. Diamond, J. C. Hall, D. M. Pattie, D. Gruber 733

Anaerobic biodegradation of gasoline oxygenates in soils
C. K. Yeh, J. T. Novak 744

Visualization of the salinity plume from a coastal ocean water desalination plant
J. J. Helly, K. T. Herbinson 753

DISCUSSION
Of: **Analysis of 10 years of virus monitoring data from Los Angeles County treatment plants meeting California wastewater reclamaiton criteria,**W. A. Yanko, **65**, 3 (1993)
T. Asano, G. Tchobanoglous 759

CLOSURE
To Discussion of: **Analysis of 10 years of virus monitoring data from Los Angeles County treatment plants meeting California wastewater reclamation criteria,**W. A. Yanko, **65**, 3 (1993); Discussion by T. Asano, G. Tchobanoglous
W. A. Yanko 761

September/October

EDITORIAL

Wastewater treatment—the first step in drinking water treatment
C. N. Haas 771

RESEARCH PAPERS

Hydraulics of corrosive gas pockets in force mains
T. M. Walski, T. S. Barnhart, J. M. Driscoll, R. M. Yencha 772

Influence of activated sludge flocculation time on secondary clarification
E. J. Wahlberg, T. M. Keinath, D. S. Parker ...779

Probablistic approach to initial dilution of ocean outfalls
H. Huang, J. R. Proni, J. J. Tsai 787

A kinetic model of a recirculated upflow anaerobic sludge blanket treating phenolic wastewater
T. C. Wen, S. S. Cheng, J. J. Lay 794

Behavior of sewage effluent oil and grease in the ocean
T. J. Schulz, P. J. Marczan, A. G. Fane 800

Heavy metals contribution of household washing products to municipal wastewater
D. Jenkins, L. L. Russell 805

Fecal pollution events reconstructed and sources identified using a sediment bag grid
P. G. Nix, M. M. Daykin, K. L. Vilkas 814

Cleaning of excavated soil contaminated with hazardous organic compounds of washing
V. S. Rajput, A. J. Higgins, M. E. Singley 819

The fate of Nocardia in anaerobic digestion
M. Hernandez, D. Jenkins 828

Mathematical modeling of particle size distribution in secondary effluent filtration
G. Alon, A. Adin 836

Activated carbon adsorption of phenolics in oxic systems: Effect of pH and temperature variations
G. Nakhla, N. Abuzaid, S. Farooq 842

DISCUSSION
Of: **A study on the precision of lead measurements at concentrations near the method limit of detection,** P. M. Berthouex, **65**, 620 (1993)
B. S. Dhaliwal, C. W. Batts 851
B. R. Nott, R. R. Maddalone 853

CLOSURE
To Discussion of: **A study of the precision of lead measurements at chncentrations near the method limit of detection,** P. M. Berthouex, **65**, 620 (1991): Discussion by B. S. Dahliwal, C. W. Batts
P. M. Berthouex 855

November/December

EDITORIAL
The Clean Air Act: What's in store for publicly owned treatment works
C. Lue-Hing 867

RESEARCH PAPERS
The effect of pore size on transfer capabilities, fouling tendencies, and cleaning amenability of ceramic diffusers
D. T. Redmon, H. Melcer, G. V. Ellefson, L. Ewing 868

Evaluation of four different tertiary filtration plants for turbidity control
J. F. Kuo, C. L. Chen, J. F. Stahl, R. W. Horvath 879

Verification of the fate of a volatile organic compound in activated sludge
H. Melcer, W. K. Bedford 887

A filtration technique for algal removal from lagoon effluents
D. D. Truax, A. Shindala 894

Activated biofilm removal of low concentrations of toluene
S. Niaki, R. D. Neufeld, C. Badali, P.K.T. Liu, D. Powers 899

Effects of diet on survival, reporduction and sensitivity of *Ceriopadhnia dubia*
C. A. LaRocca, D. E. Francisco, F. A. DiGiano 905

Determination of ferric chloride dose to control struvide precipitation in anaerobic sludge digesters
D. Mamais, P. A. Pitt, J. W. Cheng, J. Loiacono, D. Jenkins 912

The laterial flow sand filter system for septic tank effluent treatment
G. G. Check, D. H. Walter, S. A. Lee, D. A. Pask, J. D. Mooers 919

DISCUSSION
Of: **Measurement of chemical sludge floc density and implications related to sludge dewatering,** W. R. Knocke, C. M. Dishman, G. F. Miller, **65**, 735 (1993)
R. I. Dick 929

CLOSURE
To Discussion of: **Measurement of chemical sludge floc density and implications related to sludge dewatering,**W. R. Knocke, C. M. Dishman, G. F. Miller, **65**, 735 (1993); Discussion by R. I. Dick
W. R. Knocke 931

DISCUSSION
Of: **Use of Monte Carlo techniques to assess POTW compliance with EPA water quality criteria for heavy metals,** J. Bumgardner, C. Malone, L. F. Walker, R. F. Shanks, **65**, 674 (1993)
J. F. Davis 932

CLOSURE
To Discussion of: **Use of Monte Carlo techniques to assess POTW compliance with EPA water quality criteria for heavy metals,** J. Bumgardner, C. Malone, L. F.Walker, R. F. Shanks, **65**, 674 (1993); Discussion by J. F. Davis
J. Bumgardner, C. Malone, L. F. Walker, R. F. Shanks 933

DISCUSSION
Of: **Process and kinetic analysis of nitrification in coupled trickling filter activated sludge systems,** G. T. Daigger, L. E. Norton, R. S. Watson, D. Crawford, R.B. Sieger, **65**, 750 (1993)
D. Parker, J.T. Richards 934
